

Growing a Universal School Meal Program

**Join the Vancouver Food Policy Council as we learn about
School Meal Programs and vision for our community.**

The federal and provincial governments have directed multiple ministries to work together to develop school meal programs. Now's our chance to work locally to envision what school food can look like in the future. Join us in learning about school food programs and be prepared to envision what our future school meal program can be! Come learn from our esteemed panel:

- Dr. Jennifer Gaddis, assistant professor of Civil Society and Community Studies at the University of Wisconsin-Madison.
- Braden Etzerza, Indigenous Lead of the BC Chapter of the Coalition for School Food

**March 31st
6 PM PST**
